

CEPSA LAVA-ENCERA

A concentrated product based on anionic and non-ionic surfactants and water soluble waxes.

LAVA-ENCERA is biodegradable and particularly harmless to vehicle paint as well as chrome and plastics.

METHOD OF USE: Use diluted to 1% in water.
In the event of heavy soiling the concentration of LAVA-ENCERA may be increased.

HEALTH & SAFETY AND ENVIRONMENT

Health, safety and environmental information is provided for this product in the Materials Safety Data Sheet. This gives details of potential hazards, precautions and First Aid measures together with environmental effects and disposal of used products.
